Professional Summary

Resourceful and solution-driven Backend Developer and Technical Instructor with proven experience building scalable REST APIs, integrating payment systems, and architecting relational and non-relational databases. Graduated First Class in Computer Science from Federal University Lafia. Skilled in mentoring junior developers, leading hands-on training sessions, and translating complex technical concepts into clear, teachable material.

Technical Skills

Languages: TypeScript, JavaScript (ES6+), SQL

Backend: Node.js, Express.js, REST API design, JWT, OTP flows, bcrypt

Databases: Prisma ORM, Sequelize ORM, MySQL, MongoDB

Payments: Payment gateway integration (Paystack / Flutterwave)

Frontend: React, EJS templating, HTML5, CSS3, Tailwind CSS

DevOps & Tools: Git, GitHub, Docker, CI/CD pipelines, Postman, WebSockets

Professional Experience

HNG Internship

Remote

Backend Developer (HNG Internship Cohort 13)

Sept 2025–Nov 2025

- Collaborated in a fast-paced remote environment to build and scale backend services.
- Contributed to team-driven sprint goals, focusing on API performance and clean code architecture.

Harley Innovation Hub

Lafia

Backend Development Facilitator

Oct 2024–Present

- Design and deliver structured curriculum covering Node.js, Express.js, Prisma ORM, and database management.
- Lead hands-on lab sessions in SQL, authentication flows, and backend debugging best practices.
- Mentor junior developers through code reviews and project walkthroughs, improving engineering habits.

Justvkey Luxuries
Web Developer

Remote
Feb 2024–Present

- Architected a full-stack e-commerce platform using Node.js, Express, EJS, and MongoDB.
- Integrated Paystack payment gateway enabling seamless checkout and transaction tracking.
- Implemented secure authentication (JWT/bcrypt) and role-based access control.
- Providing ongoing platform maintenance and technical support.

Apesin Technology
Backend Developer Intern

Lafia
Sept 2023–Feb 2024

- Built a Contest Management API with endpoints for registration, voting, and leaderboard tracking.
- Structured relational data using MySQL and Sequelize ORM.
- Followed Git-based version control and participated in team code reviews.

Notable Projects

Health Claims Vetting System: Full-stack system for vetting health insurance claims with role-based access. Stack: React, Node.js, Express, Prisma, MongoDB.

E-Commerce Platform: Full-stack fashion e-commerce app with payment integration, inventory management, and admin dashboard. Stack: Node.js, Express, EJS, MongoDB.

Boardoverse (Backend): Real-time multiplayer Ludo game backend using Socket.io. Stack: Node.js, JavaScript, WebSockets.

ETDS (Backend): Electronic Thesis & Dissertation System for academic workflow, submission, and supervisor approval. Stack: Node.js, Express, TypeScript, MongoDB.

Education

Federal University Lafia
BSc. Computer Science, First Class Honours (CGPA: 4.71/5.0)

2020–2024
